

Tomorrow's Engineers Week 2018 Schools Toolkit

Tomorrow's Engineers Week returns
for the sixth year from 5-9 November 2018.

#TEWeek18

Tomorrow's Engineers Week

The Week aims to change perceptions of engineering among young people and inspire future engineers. It is led by EngineeringUK.

For Tomorrow's Engineers Week 2018 we will be showing how engineers are on a mission to make the world a better place.

This year the campaign forms part of the Year of Engineering and engineers featured will focus on topics young people care about including saving the environment, animal welfare, staying safe, health and entertainment.

We know schools are at the heart of inspiring the next generation so this year for the first time ever we are hosting the Tomorrow's Engineers Week Big Assembly to show the many ways that engineers make the world a better place.

#EngineerOnAMission

If you've got budding engineers they can get involved by telling us how they would like to make the world a better place.

On a short mission: We'll be creating a series of films and social media content showcasing some inspirational engineers on a mission – share this content throughout #TEWeek18

On a tea break mission: Take inspiration from our heroes and create your own #EngineerOnAMission social media posts.

To find out more about Tomorrow's Engineers Week visit tomorrowsengineers.org.uk/teweek or contact teweek@engineeringuk.com

Tomorrow's Engineers Week Big Assembly

The Tomorrow's Engineers Week Big Assembly will be hosted live on 7 November and then available for download.

The Big Assembly will feature engineers on a mission to make the world a better place. The Big Assembly will be in panel discussion format with host Fayon Dixon asking a series of questions about their lives and the way they help make the world a better place. Experts on careers will also be on hand to answer any questions about how to become an engineer. The Big Assembly will also feature short inspiring films.

The Tomorrow's Engineers Week Big Assembly gives young people the chance to hear directly from engineering professionals about their work, their inspiration and route into the industry. And there's the opportunity to get involved live via social media.

It's really easy for schools to be part of the Big Assembly and to share with students the importance of engineering on our world and how they can be a part of it.

For further information and to register visit bigassembly.org

The Tomorrow's Engineers Week Big Assembly is sponsored by BCS, ICE, IET, IMechE and Year of Engineering and supported by other professional institutions.

About the Week

Tomorrow's Engineers Week (#TEWeek18) takes place from 5-9 November 2018 and aims to change perceptions of engineering among young people, their parents and teachers and to inspire future engineers. Tomorrow's Engineers Week is led by EngineeringUK. To find out how to get involved, visit tomorrowsengineers.org.uk/teweek
